# Androgyne Lounge Table

BY DANIELLE SIGGERUD

MENU’s Androgyne Collection is distinguished by its playful, yet elegant silhouette and considered combination of natural materials. The invention of the Copenhagen-based Norwegian architect and designer Danielle Siggerud, its blend of the masculine and feminine – true androgyny – is what lends the collection its name.

Masterly proportions and an elegant mix of materials afford the Androgyne Collection a powerful sense of harmony. The latest addition to the collection, the new lounge table profiles the same duality of its predecessors – elegant, yet powerful; masculine, yet feminine – while proving itself useful everywhere from small hotel lobbies and private sitting rooms to exhibition spaces and office reception areas.

Crafted from kunis breccia stone, marked by characteristic veins and mineral fragments in warm hues, the Androgyne Lounge Table continues the simple silhouette of the collection while introducing natural materials and a shape and function made for everyday settings. The versatile design makes it possible to use as both a lounge table or bench for piles of books or statement ornaments. The perfectly balanced design honours the age-old tradition of furniture craftsmanship and its sculptural form adds an artistic silhouette to any room.

*“The solid expression of stone is offset with kunis breccia’s unique blend of stones in warm tones. The versatile piece lets you create personal spaces suited to the context, place and function it will become a part of.”* – Danielle Siggerud

### About the Designer

Danielle Siggerud is a Norwegian architect based in Copenhagen. She holds an MAA from the Royal Academy of Fine Arts in Denmark and has previously worked with renowned architect John Pawson in London. She established her Copenhagen studio in 2016.

# Connected Spaces

For more than forty years, MENU has curated strong and lasting relations between designers, manufacturers and customers to create furniture, lighting and interior accessories shaped by purposeful details, high-quality materials and human needs. Designed to withstand the test of time and profiling a modern, understated beauty, pieces are touched by a soft minimalism, pared back to reveal the very essence of each design. By creating interior objects that invite human connection, inspiration and experimentation, we push the boundaries of modern design. We've created The Audo to reflect our philosophy: the hybrid space serves as our creative showroom and headquarters, as well as a residence that connects likeminded individuals through meaningful and creative environments showcased in unconventional ways. Culminating in a concept we call *Connected Spaces*, our designs join the dots between home, work and hospitality to redefine how we use space and, ultimately, how we connect to those around us.

# MENU at The Audo

MENU's showroom is located at The Audo, a unique concept that masterfully unites co-working and event facilities, a café, restaurant and retail area, as well as an exclusive residence in a single, community-building universe. MENU's portfolio of furniture, lighting and accessories are presented and experienced here in new and authentic ways. Redefining how we use design, space and, ultimately, how we connect to one another, the creative destination is a hub for powerful ideas, beautiful design and inspiration.
