Pepe Marble Mirror, Wall

The classic standing mirror gets a functionalist update with this new wall attachment. The focus on materials and quality makes the Pepe Marble Mirror timeless.

The Pepe Marble Mirror, designed by Milan-based firm Studiopepe, is an elegant study of functionality overlapping with aesthetic. The Pepe was previously only available as a standing mirror and is now available in a wall-mounted option. This makes it perfect for small spaces and spaces where you don't want items to be moveable, such as restaurant bathrooms or hotel rooms. One side of the mirror offers regular reflection, while the other shows magnification of 300%; a perfect mirror for self-grooming.

The colour combinations of black, white or brown marble with brushed brass offer a sophisticated contrast, one that emphasises the texture and heft of the materials. This is a mirror that, while utilitarian, adds a certain refinement to the room through its simple form and beautiful craftsmanship.

Notes to Editor

MENU is a Scandinavian design brand with a simple purpose: to make the world more beautiful, less complicated, and a little bit nicer to wake up to.

Since 1978, we have harnessed the skills of top designers and craftspeople in Scandinavia and around the world to create contemporary design that is clean, clever and natural. These principles culminate in an aesthetic we call soft minimalism. Together with our Danish Modernist roots, this concept serves as a foundation for our designers as they find new ways to unite our heritage with a fresh vision for modern living, reimagining mid-century modern values to bring irresistible new ideas to people and spaces. Your chosen objects will be with you for years to come. We know every decision you make is important, and we want nothing more than to bring joy, beauty and ease to the process of designing your space. It's why we exist and what we do best.
