TR Bulbs

Designed for MENU by Tim Rundle, the TR Bulb's itinerant design moves seamlessly from space to space and room to room, installed by simply screwing it into pendant sockets. The dimmable and decorative glass bulb is now available with a dim to warm effect, transforming functional white light to cosy and ambient illumination. The corresponding series of lighting fixtures is also updated with the addition of brushed brass and brass, available as a pendant light, table lamp, ceiling suspension frame, wall lamp and ceiling lamp together with the corresponding bulb.

The TR Collection brings beauty to modern spaces with its elegant opal glass bulb and transformative geometric fixtures. The series' TR Bulb is a clever solution for modern city living, inspired by our increasingly nomadic lives, moving between cities and countries to pursue life experiences. Versioned in opal glass with a shiny or matte finish, the dimmable, portable bulb that plugs into any pendant socket is now available with a dim to warm feature that allows the user to create ambient lighting in an instant. The versatile TR range is expanded further with the addition of brushed brass and brass fixtures to the collection. Combining form and function in a single, multi-functional object, the flexible design looks stylish in any setting and formation—pendant light, table lamp, suspension frame, wall lamp or ceiling lamp. Fixtures are also available in powder-coated steel and grey marble.

Versioned in opal glass with a shiny or matte finish, the dimmable, portable bulb that plugs into any pendant socket is now available with a dim to warm feature that allows the user to create ambient lighting in an instant.

Product Type

Bulb

Environment

Indoor

About the Designer

Originally from New Zealand, Tim Rundle has a preoccupation with simplicity, improvement and the pragmatic application of creativity. Combined with a rigorous and knowledgeable approach to the technical aspects of materials and manufacturing, the result is useful, engaging and relevant design. His eponymous London-based industrial design practice, founded in 2015, focuses on products that exist within an architectural context. "A great product should look as good and work as well in the real world as it does in a photo shoot,"

he tells us. "It should positively but quietly add to the atmosphere of a real space without shouting for attention."

Notes to Editor

MENU is a Scandinavian design brand with a simple purpose: to make the world more beautiful, less complicated, and a little bit nicer to wake up to.

Since 1978, we have harnessed the skills of top designers and craftspeople in Scandinavia and around the world to create contemporary design that is clean, clever and natural. These principles culminate in an aesthetic we call soft minimalism. Together with our Danish Modernist roots, this concept serves as a foundation for our designers as they find new ways to unite our heritage with a fresh vision for modern living, reimagining mid-century modern values to bring irresistible new ideas to people and spaces. Your chosen objects will be with you for years to come. We know every decision you make is important, and we want nothing more than to bring joy, beauty and ease to the process of designing your space. It's why we exist and what we do best.
